FACTS ABOUT BOZEMAN. . . .

EXCELS DR. KOCH'S LYMPH.

A FEW PLAIN FACTS

GALLATIN VALLEY produces more grain than all the

rest of Montana. 500,000 bushels of oats, 200,000 bushels

of barley, and 300,000 bushels of wheat, a grand total of

1,000,000 bushels, is about an average crop for the Gallatin

Valley. Nelson, Story & Co.'s mill grinds all the wheat grown

in the Gallatin Valley. Grinds more wheat than all the other

mills combined in the state of Montana. This mill grinds steady

day and night. Has a mill race three miles in length to con-

duct the water to the wheel. Has one immense engine of 125

horse-power. The mill and store houses cost \$100,000. It is the

most thoroughly equipped plant in the Northwest, being Full

Among the Living.

Bozeman, the coming city of Montana, the most prosperous state in the Northwest, is now recognized as most surely to be the future capital, and this is the city for a safe investment. Real estate is now cheaper than in any city of its size and advantages. Money now invested here is sure to bring quick returns and large profits. The cheapest inside properties are now held by the Minneapolis Syndicate, and R. R. Finlay, the agent who is located in Bozeman, is rapidly selling blocks and lots to Bozeman citizens, who are taking advantage of the low prices of property on which to build homes before prices advance. Syndicates are forming and endeavoring to purchase the additions of Capitol Hill, Park and Spring Brook, knowing they can advance prices 50 per cent and sell the property rapidly. The lines addition has already been bought of the Minneapolis Syndicate by a Butte and Bozeman Syndicate, and if you look over the Capitol Hill, Park and Spring Brook additions, get prices and compare them with prices of lots in other additions you will not care to look further. The above additions are in the finest residential portion of the city and are within five blocks of the post office, two blocks of the Court house, and eight blocks of the new Bozeman hotel. Blocks of 24 lots are being sold in Capitol Hill Addition for \$1,100, and lots in Park and Spring Brook Addition from \$50 to \$125 per lot. Our terms are the most liberal offered and will suit any one. For further information call on or write to Mr. R. R. Finlay, who represents these additions exclusively. Office in Bozeman City Mail, opposite the Bozeman hotel.

Still in the Ring.

With the Capital, the Agricultural College and Experiment Station in sight. What is the matter with these prices? Imes addition. Four blocks from the depot and five blocks from the new hotel. Lots range from \$35.00 to \$100.00 each. On easy terms. Butte addition, six blocks from the postoffice. Lots range from \$40.00 to \$100.00, each. Easy terms. These with the additions mentioned in Mr. Finlay's half of this space, bound the business portion of the city on the North, West and South. We represent it all. Besides this we have a business, 2-story, brick block, with basement, renting for \$450.00 a month, which we can sell for \$33,000.00. Also a 2-story, brick block, with basement, renting for \$257.50, which we can sell for \$17,000.00, both centrally located. We have other investments all over the city equally as good. Ranches with a record for producing, unsurpassed. Close to town. Coal mines, eight miles from Bozeman, showing a splendid vein of first-class coking coal. A health resort, Ferris Hot Springs, in 6 miles of Bozeman. A paradise for a man with a few dollars. Why do we advertise? Because you are overlooking the safest and surest bet of your lives. Prices are steadily advancing. All we ask is a candid investigation.
